BONALDO

Arragan night accessories

Designer: Gabriele & Oscar Buratti

The Arragan drawer chest and designer bedside table fit neatly into the collection of the same name designed by Gabriele and Oscar Buratti, translating the design vision into essential and sculptural volumes. The chest of drawers, with three drawers, and the bedside table, available in two sizes – a larger one, with an American style and a more compact one – share the same formal purity.
Both are slightly raised thanks to a low foot that accentuates their visual lightness and compositional simplicity. The painted finish, available in gloss or matt version, interacts with the light, creating unexpected reflections and depths.
The Arragan drawer chest and designer bedside table balance theatrical presence with discretion, offering a versatile solution for the organization of space. The lowered top transforms into an integrated tray, a distinctive detail that reinforces the collection's design identity.

Data sheet
