BONALDO

# Liaison

Designer: Spazioameno

Liaison is a table that exists between art and function. At the heart of the design lies the metaphor of an encounter: two autonomous forms that, without merging, create a visual and emotional unity.
The sculptural base is composed of two identical volumes facing each other and, without ever touching, engaging in a relationship through a slight rotation. The geometry thus unfolds as a continuous interplay of solids and voids: each element retains its own identity, while the whole finds stability and expressive strength in its relationship with the other. The top rests on this symbolic architecture like a stable horizon, elevating the dialogue between the forms below.
The top is available in wood, ceramic or marble, while the base is made of high-density polyurethane.
