BONALDO

Boolean

Designer: Giuseppe Viganò

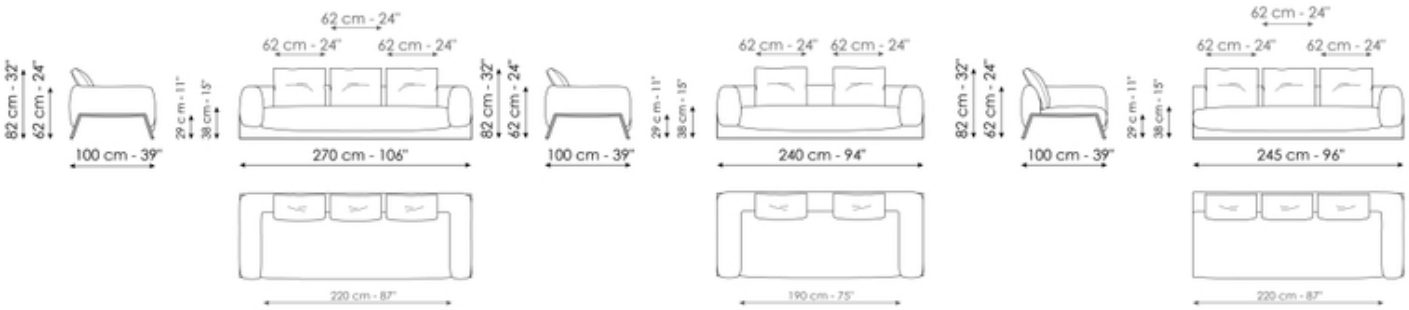

Conceived by designer Giuseppe Viganò, the Boolean sofa challenges the traditional canons of contemporary design thanks to a harmonious fusion between an enveloping style and a linear silhouette that captures the attention. Boolean is much more than a simple furnishing accessory: it is a timeless oasis of style and comfort, capable of transforming a living space into an environment of pure relaxation. Its aesthetics stand out thanks to the essential nature of the shapes, expertly enhanced through games of intersections that give the soft and enveloping seating space a touch of personality and innovation.
But what makes the Boolean Sofa truly unique is the heart of its frame: a bridge base available in Canaletto walnut or coal oak which crosses the upholstery longitudinally, modulating its volume to enhance its character and strong theatrical presence.
This creation represents a synthesis of technical virtuosity that puts the emphasis on detail right from the design phase, all interpreted and executed with Bonaldo's hallmark craftsmanship.

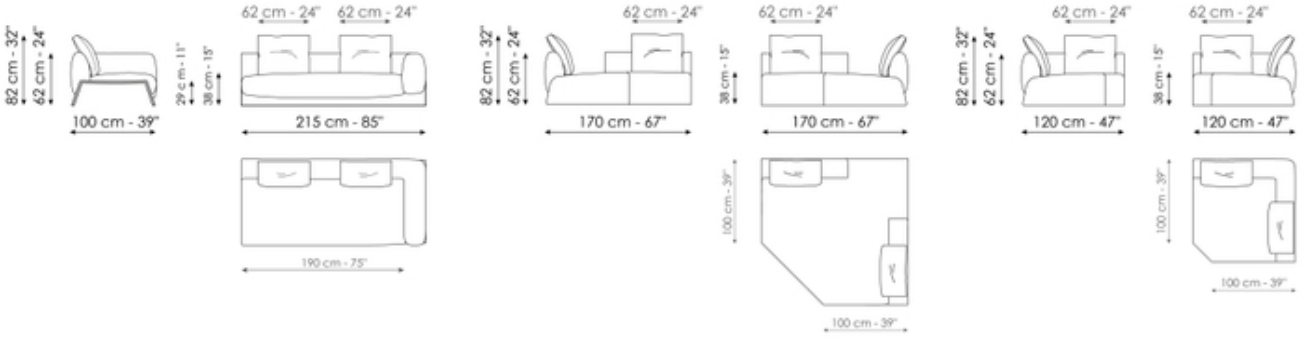

Data sheet

Sofa 270
Width: 270cm
Depth: 100cm
Height: 82cm

Sofa 240
